Brand Foundation

About The Brand

The Graduation Show is NIFT Kannur's annual showcase celebrating the culmination of each student's Graduation Project. Over a six-month period, students work closely with industry partners, craft clusters, designers, and independent mentors to develop projects that reflect their creative identity and professional direction.

The showcase provides a platform for parents, industry experts, and visitors to experience the diverse outputs of all departments. It highlights the skills, research, craft engagement, technical knowledge, and design thinking developed throughout the students' academic journey.

Brand Vision

We at NIFT offer a high-standard learning experience across campuses, grounded in excellence in fashion design, technology, and management. A creative academic environment encourages exploration, experimentation, and innovation alongside industry-ready skills.

Inspired by India's textile and craft heritage and aligned with global trends and technologies, graduates emerge culturally grounded, globally aware, and future-ready professionals with purpose, integrity, relevance, adaptability, excellence.

Brand Mission

We provide a transformative educational environment that nurtures inventive potential and distinctive skills for individual, industry, and societal growth. Our evolving curriculum integrates India's artistic heritage with contemporary thinking and disruptive technologies.

We celebrate cultural diversity and fellowship while advancing innovative, project-based learning in design, management, and technology, supported by rigorous research across textile, apparel, retail, and accessory sectors.

Core Values

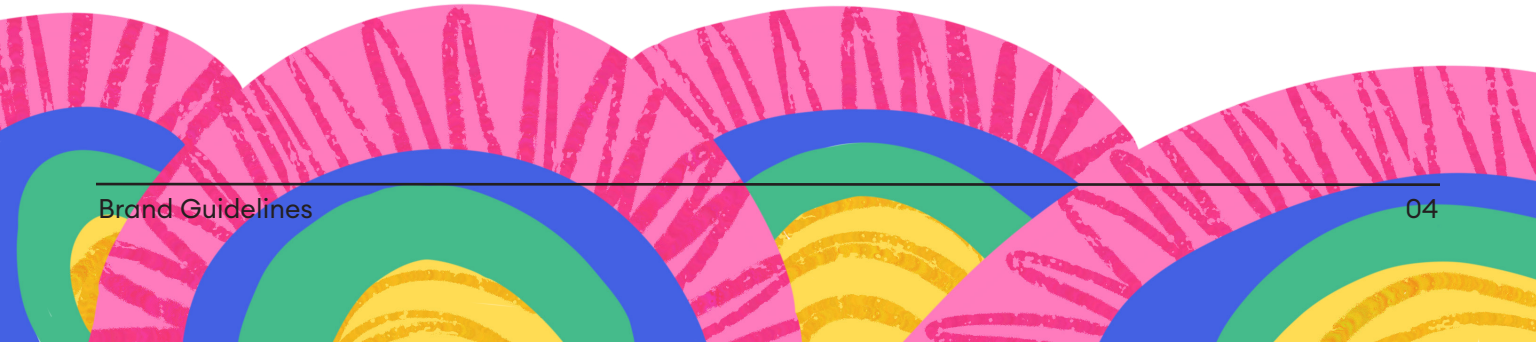

The core values of NIFT are innovation, inclusivity, and excellence, shaping its academic and institutional vision. The institute nurtures creativity, critical thinking, and collaboration while integrating India's craft heritage with contemporary design thinking.

Through creative enterprise, research-driven learning, and industry engagement, NIFT develops competent, responsible, and future-ready professionals equipped to contribute meaningfully to evolving fashion, design, and allied industries.

Brand Personality

If the showcase were a person, it would be experimental yet grounded, exploring new ideas while anchored in strong foundations. Articulate and expressive, it would communicate with clarity, intention, and restraint.

Confident, minimal, and modern, it values form and thought. Culturally conscious and youthful with purpose, it honors heritage while shaping the future with curiosity, ambition, discipline, and resolve collectively.

Brand Story

The NIFT Kannur Graduation Showcase marks the culmination of creative journeys and the formation of distinct identities. It is where years of exploration evolve into powerful design statements.

Rooted in Kerala's rich craft traditions and driven by contemporary global design thinking, the showcase becomes a dialogue between heritage and innovation. More than an exhibition, it represents the emergence of new voices prepared to shape the future of the creative world.

Characteristics Of The Brand

Professional yet approachable, confident and expressive, the show communicates innovation and creativity clearly. It balances contemporary aesthetics with cultural sensitivity, using storytelling and immersive visuals to engage the audience. The style is bold, experimental, and polished, reflecting emerging talent while maintaining clarity, cohesion, and artistic purpose.

Brand Positioning

The NIFT Kannur Graduation Showcase is positioned as a contemporary platform for emerging designers who balance cultural rootedness with forward-looking design thinking. It stands at the intersection of tradition and innovation, showcasing work that is experimental yet purposeful.

The brand represents credibility, creativity, and professional readiness, positioning the showcase as a launchpad where student voices evolve into confident contributors to the global design and fashion landscape.

Tone & Communication Style

The tone evolves from playful and exploratory to confident and resolved. Communication reflects growth, transitioning from raw, hand-drawn expressions to bold, structured clarity. It balances curiosity with maturity, embracing transformation from 2D ideas to 3D realities. The voice remains expressive, contemporary, and purposeful, symbolizing the journey from childhood imagination to professional design identity.

Logo System

Logo Concept

The Graduation Show 2026 logo is inspired by the journey of a designer from instinctive childhood scribbles to confident creative expression. The typography begins in a controlled, minimal form and gradually introduces hand drawn interventions, symbolising learning, experimentation, and growth.

Select letterforms the ‘a’, ‘t’, and the dot appear compressed, imperfect, and childlike, referencing early acts of drawing and uninhibited creativity. These elements act as visual pressure points, holding creative energy within the wordmark. This restrained energy then expands beyond the logo into fluid, layered graphic forms, representing the moment of graduation where ideas are no longer contained but released freely into the world.

The surrounding abstract visuals extend the logo’s narrative, transforming the scribble into a bold, expressive language system that reflects the diversity, individuality, and evolution of graduating designers at NIFT.

Logo Meaning

The logo represents creative becoming the transition from learning to liberation. It captures the emotional shift designers experience at graduation: moving from guided structure to independent expression.

The hand drawn elements signify innocence, curiosity, and raw imagination, while the clean typography reflects discipline, training, and design education. The contrast between the two mirrors the NIFT journey where structured learning nurtures expressive freedom.

The expansion of colour, texture, and form beyond the logo symbolises a creative burst an outward movement of ideas, voices, and identities. It marks graduation not as an end point, but as a release: a moment where creativity is no longer contained within assignments or classrooms, but flows outward into the industry and the world.

Together, the logo and its visual language embody confidence, playfulness, and transformation celebrating designers who are ready to take space, experiment boldly, and define their own creative paths.

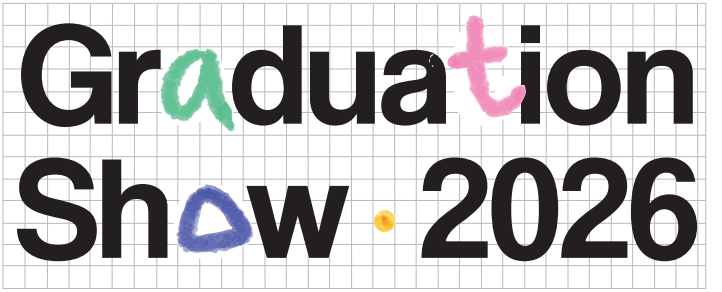

Logo Construction

The Graduation Show 2026 logo is constructed using a clean, modern sans-serif type base combined with intentional hand drawn interventions. The core typographic structure ensures clarity, legibility, and consistency across all applications, while the scribble elements introduce expression and individuality.

The wordmark is set in a fixed horizontal layout across two lines:

- Line 1: Graduation
- Line 2: Show · 2026

Hand-drawn elements are applied selectively and are not decorative additions but integral parts of the logo's construction.

The proportions, spacing, and placement of these elements are fixed and must not be altered. The scribble forms are always locked to the typographic grid, maintaining balance between structure and freedom.

Logo Anatomy

Colour Accents

The scribble elements and dot use a curated colour palette to create contrast against the neutral wordmark, reinforcing the theme of creative emergence.

Primary Wordmark

The main typographic structure forming “Graduation Show 2026,” is made by the font “Coolvetica” designed for high readability and institutional clarity.

Scribble Letterforms

Hand drawn strokes integrated into select characters, representing early creative expression and intuitive mark-making.

Symbolic ‘O’ Replacement

A triangular, hand drawn shape replacing the ‘o’ in Show, referencing play, experimentation, and non linear thinking.

Textured Separator Dot

A circular, tactile dot acting as a visual pause between Show and 2026, symbolising a transition point from education to professional practice.

Isolation Area

To maintain legibility and consistency across all applications, the NIFT Graduation Show 2026 logo must always be displayed with adequate surrounding space. This ensures the logo remains clear, impactful, and visually uncompromised.

The isolation area defines the minimum clear space required around the logo. No graphic elements, typography, imagery, or page edges may intrude into this space.

The isolation area is measured using X, where X equals the height of the capital letter “G” in the word Graduation.

The minimum clear space on all sides of the logo is ½X.

Incorrect Usage

1. Do Not Distort or Rescale the Logo

The logo must always be scaled proportionally.
Don't stretch horizontally or vertically
Don't compress the logo to fit a space

2. Do Not Modify Colours

The logo colours are fixed and form an integral part of the identity.
Don't change letter colours
Don't apply gradients, shadows, or textures
Don't use unapproved colour combinations

3. Do Not Alter Typography

The logo's letterforms are custom and must not be replaced.
Don't replace the font
Don't manually edit or retype the text
Don't change font weight or letter spacing

4. Do Not Rearrange Logo Elements

The logo is a fixed lockup.
Don't separate "Graduation", "Show", and "2026"
Don't change line breaks or alignment
Don't reorder text elements

5. Do Not Violate Clear Space Rules

The defined isolation area must always be respected.
Don't place text or graphics within the clear space
Don't crop the logo too close to edges
Don't overlap the logo with imagery

6. Do Not Place on Low-Contrast Backgrounds

The logo must remain legible at all times.
Don't use busy or patterned backgrounds
Don't place on colours with insufficient contrast
Don't use imagery that interferes with readability

7. Do Not Rotate or Skew the Logo

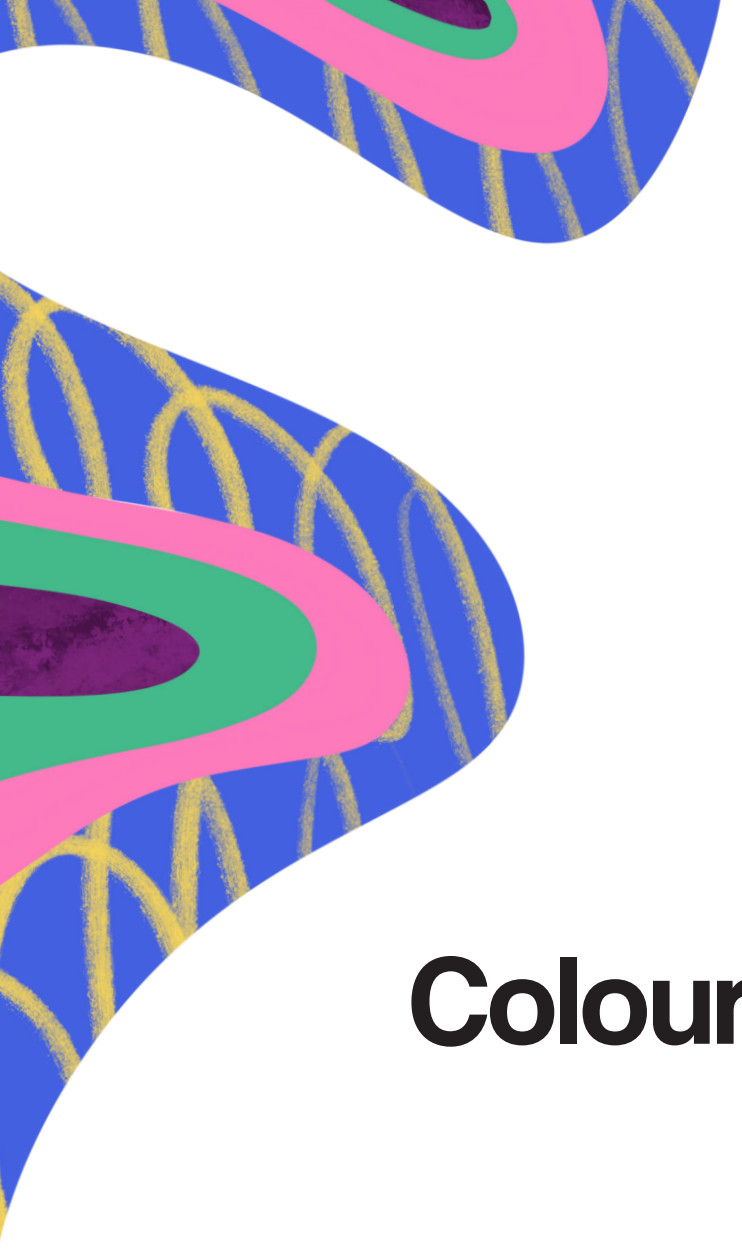

The logo must always appear upright.
Don't rotate at any angle
Don't apply perspective or skew effects

8. Do Not Add Effects or Outlines

The logo should remain clean and minimal.
Don't add strokes or outlines
Don't apply drop shadows or glow effects
Don't use transparency or opacity effects

Colour Identity

Primary Colour Palette

The primary colour palette represents creativity, diversity, and contemporary expression. It balances boldness with warmth, allowing flexibility across digital and physical applications.

The palette is anchored by strong core colours, supported by vibrant accent shades that add depth and energy while maintaining visual harmony and accessibility.

Core Blue
HEX: #4A63E7
RGB: 74, 99, 231
CMYK: 68, 57, 0, 9
PBS: 2727 C

Solar Yellow
HEX: #FFE05A
RGB: 255, 224, 90
CMYK: 0, 12, 65, 0
PBS: 7404 C

Creative Pink
HEX: #FF8BC7
RGB: 255, 139, 199
CMYK: 0, 45, 22, 0
PBS: 2036 C

Studio Plum
HEX: #4B144B
RGB: 74, 24, 79
CMYK: 6, 70, 0, 69
PBS: 2627 C

Fresh Green
HEX: #4DBB8A
RGB: 77, 187, 138
CMYK: 59, 0, 26, 27
PBS: 3395 C

Secondary Colours

The secondary colour palette is intended for digital interfaces, infographics, and illustrations where tonal variation enhances clarity and user experience.

These colours support the primary palette and must not be used prominently. Usage is limited to tone-on-tone pairings, ensuring visual consistency, accessibility, and the continued impact of the core colours.

Soft Core Blue
HEX: #78a2ff
RGB: 142, 160, 214
CMYK: 34, 25, 0, 16

Muted Indigo Blue
HEX: #6F86C4
RGB: 111, 134, 196
CMYK: 43, 32, 0, 23

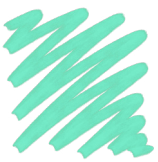

Muted Studio Plum
HEX: #8E3B7A
RGB: 142, 59, 122
CMYK: 0, 58, 14, 44

Deep Studio Plum
HEX: #4A184F
RGB: 74, 24, 79
CMYK: 6, 70, 0, 69

Washed Fresh Green
HEX: #9ED6C2
RGB: 158, 214, 194
CMYK: 26, 0, 9, 16

Light Fresh Green
HEX: #4DBB8A
RGB: 77, 187, 138
CMYK: 59, 0, 26, 27

Soft Creative Pink
HEX: #F2B6CF
RGB: 242, 182, 207
CMYK: 0, 25, 14, 5

Light Creative Pink
HEX: #FF8BC7
RGB: 255, 139, 199
CMYK: 0, 45, 22, 0

Pale Solar Yellow
HEX: #FFF1A8
RGB: 255, 241, 168

Light Solar Yellow
HEX: #FFF1A8
RGB: 255, 241, 168
CMYK: 0, 5, 34, 0

Accent Colours

White, black, and beige function as accent and neutral colours within the palette. They provide visual balance, improve readability, and allow primary and secondary colours to stand out.

These tones are used for backgrounds, text, spacing, and structural elements, ensuring clarity, accessibility, and a refined, contemporary visual system.

Black
HEX: #000000
RGB: 0, 0, 0
CMYK: 0, 0, 0, 100

White
HEX: #FFFFFF
RGB: 255, 255, 255
CMYK: 0, 0, 0, 0

Beige
HEX: #F3DFC4
RGB: 243, 223, 196
CMYK: 0, 8, 19, 5

NOTE : The logo may only be used on white, black, or beige backgrounds. Use of the logo on any other colors is not permitted. For all collateral such as books and posters, white must be used as the primary background or accent color to ensure clarity and consistency.

Typography System

Primary Typeface

Headlines are set in Coolvetica, the primary typeface. When using Coolvetica for headings across digital or printed collateral, always apply optical kerning with tracking set to 0.

Leading should be set as the same size of the font size. Headlines may be set in sentence case or all caps, but must never be set in all lowercase.

Coolvetica

abcdefghijklmnopqrstuvwxyz.
ABCDEFGHIJKLMNOPQRSTUVW
XYZ
0123456789
.@#%!+ -* /=?~,

Secondary Typeface

Secondary typeface Euclid Circular A is used for paragraphs, captions, and informational content across digital and printed collateral.

For books, text should be set at 12 pt with 15 pt leading and kerning set to 0, ensuring clarity, consistency, and a balanced typographic hierarchy.

Euclid Circular A

abcdefghijklmnopqrstuvwxyz.
ABCDEFGHIJKLMNOPQRSTUVW
XYZ
0123456789
.@#%!+ -* /=?~,

The Graduation Show brings together final-year projects that demonstrate conceptual clarity, technical skill, and individual voice. Each exhibit highlights a unique approach to fashion, communication, and design, bridging traditional knowledge with modern perspectives. The showcase serves as a platform for dialogue between students, industry, and the larger creative community.

Visual Language

Graphic Elements

The graphic system expresses the visual identity through expressive colour and hand-drawn forms. Scribbles, crayon strokes, and watercolour textures introduce a raw, tactile quality, balancing structure with spontaneity.

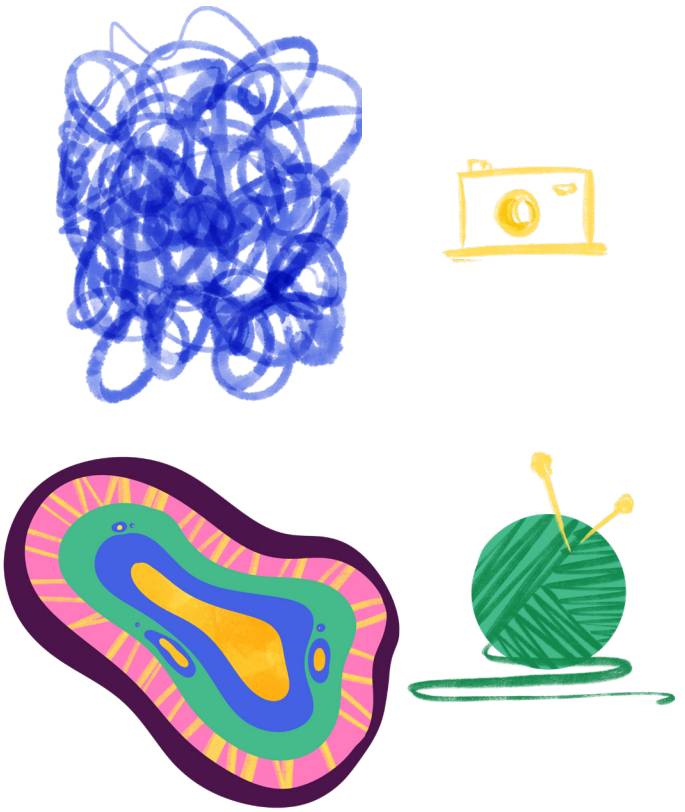

This approach allows primary colours to be applied consistently while creating a playful yet controlled visual language. The system avoids literal imagery and is built around three core elements: textured colour fields, organic shapes, and gestural line work.

Pattern & Texture Applications

Textures and patterns are applied to add depth, tactility, and visual interest across the graphic system. Scribble lines, crayon marks, and watercolour washes create a handcrafted feel while maintaining consistency through controlled repetition.

Patterns are used selectively to avoid visual clutter, functioning as background layers or accents. This approach balances playfulness with clarity, allowing expressive surfaces without overpowering content or disrupting overall visual hierarchy.

Digital Presence

Social Media Templates

The digital presence is anchored by white or neutral backgrounds to maintain clarity and readability. Bold colours and graphic elements are used sparingly to guide attention and create visual impact.

Layouts remain clean and structured, ensuring smooth navigation across platforms. This restrained approach allows expressive graphics to enhance the experience without overwhelming content or compromising usability across screens.

Brand Applications

Event Backdrop

For auditorium backdrops, white or beige bases are used to ground the bold primary palette and maintain visual balance at large scales.

Graphic elements are applied selectively to ensure strong impact and clear visibility from a distance. Overuse of small or repetitive components is avoided, allowing the backdrop to remain bold, legible, and supportive of the event without distracting from the stage or speakers.

Merchandise

Merchandising applications rely on white or neutral bases to balance bold colours and graphic elements. Designs are kept minimal to ensure clarity and usability across products. Graphics are applied selectively, allowing each item to feel intentional rather than overcrowded.

This approach maintains visual consistency while ensuring merchandise remains functional, appealing, and aligned with the overall identity without overwhelming the user or the product.

Signage & Wayfinder

When using graphic elements, rely on white or beige to ground the bold primary palette.

Apply graphic devices sparingly across print and digital media, and avoid pairing them with small or repetitive components, ensuring they retain impact and do not distract from content.

Co-branding

Partner Logo Placement

To ensure clarity and visual balance in co-branded applications, the NIFT Graduation Show 2026 logo must maintain adequate clear space when placed alongside NIFT@40 logo.

This prevents visual competition and preserves brand hierarchy. The minimum spacing between logos should be equal to the height of the capital letter “G” in Graduation, ensuring both identities remain legible and distinct.

Brand Governance

Brand Asset Storage & Access

Brand assets are managed through a centralized digital repository to ensure consistency and controlled usage. Approved logo files and key collaterals including event backdrops, invitations, posters, and supporting materials are accessible via the project's Behance showcase:

www.behance.net/NIFTGraduationShow2026.Access

is limited to authorized users, and assets must not be modified or redistributed without prior approval to maintain brand integrity across all applications.
